

PICTURE

KV

DESCRIPTION

Sealing collars KV are made of EPDM elastomer with submerged elastic aluminum tape at the edges. Flexible base adapts to every kind of roof covering securing a rigid and tight connection. Usage of such col-

lars is especially recommended with processing small roof flashings, TV antennas, ventilation pots etc. on the roof.

MEASUREMENTS

Symbol	A	B	CxC
KV 30	Ø 6 - 100	80	205x205
KV 40	Ø 75 - 155	100	250x250
KV 50	Ø 102 - 178	105	270x270
KV 60	Ø 125 - 230	130	305x305
KV 70	Ø 150 - 280	140	360x360
